

## **Athens Gets A KISS From Omnia**

### **Popular Nationwide Greek Broadcaster Upgrades To Omnia**

---

05 November 2003, Cleveland Ohio, USA

KISS 92.9 FM, whose Contemporary Hit Radio programming is heard throughout the Greek isles, is the latest in a recent string of major Greek radio broadcasters to upgrade to Omnia audio processing. In addition to its home market of Athens, KISS 92.9 FM ([www.kiss.gr](http://www.kiss.gr)) is heard throughout Greece, beaming its popular mix of US and European hits to 23 affiliate stations nationally.

“KISS has become very popular by giving our listeners the best music, and also by giving them the best audio,” says Takis Kostakis, General Manager of KISS. “Even perfect programming needs proper processing to hold listeners. Omnia makes KISS sound even more exciting! We are really enjoying the excellent sound of our Omnia.”

KISS chose to upgrade with an Omnia-6fm audio processor, which features 5 bands of Automatic Gain Control, 6 bands of limiting and a fully user-adjustable crossover network. Omnia-6 is also the world's first broadcast audio processor with 96kHz sampling and 24-bit resolution. Omnia-6 processors are available both for conventional FM and HD Radio/DAB broadcasters.

Many leading Greek broadcasters have upgraded to Omnia audio processing recently, including ERA (Greek National Radio), MAD TV, Radio DJ 95.2 and Radio Thessaloniki 94.5. Internationally, Omnia is used by as Virgin Radio, NRJ, The BBC, Deutsche Telekom, RTL and Skyrock, and is the choice of more than half of the Top 100-rated radio stations in the U.S. For more details, visit [www.omniaaudio.com](http://www.omniaaudio.com).
